Workshop for providers in Warsaw 20-21 September 2022

Agenda (*time slots will be dynamically adjusted to fit the needs*)

09-11 Welcome, IIA and LA on business and technical level

- Checking network connections
- (9:15-10:00) IIA and LA business requirements document (by Paul Leys)
- IIA and LA detailed technical exchange scenarios: requests, responses, flow (by AUTh)
- What further changes in IIA and LA are needed (2022/2023)?

11-11:30 Coffee break

11:30-13 Testing part I

- Common errors in implementations and how to solve them (by AUTh)
- Testing in pairs (IIA, LA)

13-14 Lunch

14-15:30 Testing part II

- Testing in pairs (IIA, LA)

15:30-16 Coffee break

16-17 Discussion and sharing ideas

- EWP tracking system, design ideas (minimising implementation effort and maximising effectiveness of error recovery)
- Logging requests and responses, what do we log, what tools do we use, recommendations, best practices

Wednesday 21.09, 9:00-15:00 (or longer)

09-11 Testing part III

- Testing in pairs
- Sharing test reports

11-11:30 Coffee break

11:30-13 Discussion and sharing ideas

- Current status of the central services and further plans: Registration Portal, Registry
- Gathering statistics, Stats endpoints
- Stats Portal, visualizing statistics

13-14 Lunch

14-15 Discussion and sharing ideas

- What technologies you use in your software, any useful tools you would recommend?
- Usefulness of EWP building blocks, what would you like to get when starting
- Any other technical issues
